Additives International,

Debtor,

Bankruptcy No. 22-22005
Chapter 7

Natalie Lutz Cardiello, Chapter 7 Trustee for
Lockhart Chemical Company,

HON. CARLOTA M. BÖHM

Movant.

_____ /

**MICHIGAN DEPARTMENT OF ENVIRONMENT, GREAT LAKES,
AND ENERGY'S STATEMENT IN SUPPORT OF THE TRUSTEE'S
SECOND MOTION FOR AUTHORITY TO CONTINUE TO OPERATE
DEBTOR'S BUSINESS**

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) states as follows in support of the *Second Motion for Authority to Continue to Operate Debtor's Business* filed by the Chapter 7 Trustee, Natalie Lutz Cardiello (Trustee):

1. The Lockhart Chemical Company's (Debtor) business involves operating a chemical facility located at 4302 James P. Cole Boulevard, Flint, Genesee County, Michigan 48505 (Facility). Chemical products, hazardous process materials, and wastes at the Facility pose a risk to public health and the environment and must be properly managed according to state and federal environmental laws.

2. The Debtor had a long history of non-compliance with environmental protection laws, including failing to properly manage chemicals, hazardous wastes, contaminated process water and stormwater, and liquid industrial by-products.

3. On June 15, 2022, the Facility illicitly discharged approximately 15,000 gallons of oily substances into the Flint River, prompting an emergency spill response by EGLE and the United States Environmental Protection Agency (EPA).

4. On September 19, 2022, the Director of EGLE issued a Director's Final Order (DFO) under Part 31, Water Resources Protection, of Michigan's Natural Resources and Environmental Protection Act, 1194 PA 451, Mich. Comp. Laws §§ 324.3101–324.3134, detailing environmental issues at the Facility and directing the Debtor to take certain steps to protect the public health, safety, and welfare of the environment. (ECF No. 111-1.)

5. Rather than addressing the environmental issues at the Facility, the Debtor filed for Chapter 7 bankruptcy on October 10, 2022, leaving behind compromised infrastructure, improperly stored chemical materials, and other serious environmental issues at the Facility. (ECF No. 1.)

6. On October 19, 2022, the Trustee filed an *Expedited Motion for Authority to Operate Debtor's Business Nunc Pro Tunc*. (ECF No. 17.) This Court granted the Trustee's motion on October 25, 2022. (ECF No. 29.)

7. On December 2, 2022, the EPA issued an Administrative Order under Section 311(c) of the Clean Water Act, 33 U.S.C. § 1321(c), requiring that certain steps be taken to reduce the risk of a potential release of oil and hazardous substances during the Trustee's operation of the Facility. (ECF No. 81-1.)

8. The EPA subsequently approved a Work Plan and a Health and Safety Plan pertaining to the Trustee's operation of the Facility.

9. EGLE believes that the Trustee's operation of the Facility in compliance with the DFO, the EPA Administrative Order, and applicable environmental protection laws is beneficial to the estate, the public, and the environment, as it provides a process by which chemical products, wastes, and other materials can be safely removed from the Facility and sold or properly disposed of subject to appropriate health and safety measures and oversight.

10. EGLE supports the Trustee having continued authority to operate the Debtor's business, so long as the Trustee's operations are subject to and comply with the DFO, the EPA Administrative Order, and all applicable environmental protection laws, as required under 28 U.S.C. § 959(b).¹

Respectfully submitted,
